## Top 100

To determine the ranking we count the times each file gets downloaded. Both HTTP and FTP transfers are counted. Only transfers from [ibiblio.org](#) are counted as we have no access to our mirrors log files. Multiple downloads from the same IP address on the same day count as one download. IP addresses that download more than 100 files a day are considered robots and are not considered. Books made out of multiple files like most audio books are counted if any file is downloaded.
